RENOVATED COUNTRY COTTAGE

This lovely country cottage has been renovated and still has the original polished jarrah floor boards and wide verandas on 2 sides. The bedrooms are a good size and there is an open plan living area which leads out onto the back veranda with lovely views over the gardens. The kitchen and bathroom/laundry have been renovated to a high standard and the gardens have some fruit trees, garden shed and plenty of shrubs to attract the native birds. The property feels very peaceful and is in a quiet location but still very close to town and all its amenities.

Currently being used as short term accommodation and if wanted can come with future bookings and all furniture. This property would suit an investor, first home buyer, retirees or anyone who loves a well maintained country home. With so many people who would be interested, don't leave it too long to organise a viewing as it might be too late as I think it will sell quickly at this price.
