Balingup Beauty

Looking for a tree change but with a touch of the modern? Then this one might be for you. Family sized 3x2 brick home in the lovely valley of Balingup. Just minutes from the town centre, but so quiet! As you drive up to the property that sits in a cul de sac, the first thing you see is the front retaining wall, made using Donnybrook stone. The house is set to take in the views over the valley with large bay windows. The living area of this home is huge and has both an air conditioner and a slow combustion fire. The bedrooms are all a good size with the main having ensuite and a walk in robe. The living areas of the home are tiled and the bedrooms are carpeted. Out the back of the home is a patio that goes the whole length of the house and has a lovely terraced garden all made of limestone blocks. The property has a double carport and a huge concreted, powered double lock up shed + a garden shed.

\$379,500
